---

Reflex Enterprise Solutions Group Inc.  
[www.ReflexERP.com](http://www.ReflexERP.com)  
(780) 451-4596

Tailored for land development companies, Reflex Land Development specializes in managing commercial, residential and industrial lot building and land development processes.

Reflex is a powerful and modern software system that can schedule, manage sales, and support land development operations—all within one fully integrated solution.

Benefit from increased budgeting and cash flow performance, based on effective, real-time management of land and lot inventories.

Built around the core requirements and business processes of land development, Reflex manages critical scheduling, produces cash flow reporting, and manages all purchasing and costing information.

- Land Management
- Estimating/Revisions
- Lot Sales Processing
- Dashboards
- Web Portals
- Cash Flow/Pro Formas
- Contract Management
- PO Management
- Change Order Management
