

Reflex

MANUFACTURING

Stay ahead of the competition with a modern ERP system that's tailored specifically to the manufacturing industry.

With Reflex Manufacturing, you can fully manage work orders, maintain compliance with continual quality standards, and synchronize all moving parts throughout the organization—all in real time.

Plan for the future with a modern, state-of-the-art software solution that standardizes operations and workflows across an organization and offers a 360-view with built-in custom reporting.

Manage every aspect of your organization with our manufacturing-specific modules:

Inventory Management
Build to Order
Build for Stock

Custom Manufacturing
Project Costing
Estimating and Quotations

Scheduling and Production Management
Installation Orders
Purchase Order Requisition

Web Portals
Analytics, Business Intelligence,
and Reporting
