

Reflex

GOVERNMENT

Reflex's Government-specific solutions can help your organization respond effectively and efficiently to public needs and legislative mandates, while simultaneously increasing fiscal accountability and focusing on transparency and performance.

To meet the need for transparency, accountability, and knowledge, Reflex delivers wide-ranging functionality, financials, human capital management, procurement, business intelligence, and much more.

Maintain corporate-wide visibility with real-time alerts and notifications and increase productivity and security with role-based access and governance, risk, and compliance (GRC).

**Manage every aspect of
your organization with
our public sector-specific
modules:**

Case Management

Public Trustee Management

Enterprise Asset Management

Crown Land Management
(Lease and Pasture)

Building and Infrastructure
Management

Web Portals

Analytics, Business Intelligence,
and Reporting

“ We are a unique operation and required a great deal of customization, but the Reflex team met all our requirements in a very cost effective approach. ”

*Jeremy Meinema, Finance and Sales Manager,
City of Saskatoon*
